

Covering the Cost of PrEP

Insurance/Medicaid

- If you have health insurance, your insurance is likely required to cover the entire cost of your PrEP, testing, and seeing your provider. [Click here](#) for more info.
- If you have Medicaid, your PrEP will be covered with \$3-\$5 copays.
 - If you have a SSN, live in CO, and have low income, [click here](#) to see if you qualify for Medicaid.
- If you have insurance through Kaiser, Medicare, or Tricare, please contact a PrEP navigator or your provider for assistance.
- **Please ensure you see an in-network provider. If you need help finding a provider, check out our provider guide.**

PHIP

- The state of Colorado's Public Health Intervention Program can cover the entire cost of your PrEP!
- The program can act like "PrEP insurance," or can be used to cover any costs your insurance doesn't cover.
- The program's criteria include living in Colorado, not qualifying for Medicaid, and have an FPL of 500% or less. You can [click here](#) to calculate your FPL percentage.
- For information about the program, providers that accept PHIP, and the application process, [click here](#).
- You may be required to apply for a medication assistance program below *with your provider* if appropriate.
- Questions? **Call/text 970-260-9454**
