

Getting Started on PrEP

1

Figure out how to cover the cost. There are ways to get PrEP for little to no cost! Check out our [Covering the Cost](#) guide for more info.

2

Make an appointment with a provider that accepts your coverage. Check out our [PrEP Provider](#) guide for more info.

3

Go to your first appointment for PrEP. Your provider will discuss your options and may perform some testing.

4

Once you have a prescription for PrEP, start taking your medication. Check out our [PrEP Medications](#) guide for more info.

5

See your provider as directed for check-ins and testing. If you start feeling side-effects, please let your provider know!

For help getting started on PrEP, please contact our PrEP Navigator using the [interest form](#), or **call/text 970-260-9454**
